The Richmond Examiner thinks there is a poor prospect for the grain crop in Southwestern Virginia the coming season.

The unknown expedition fitting out by General Gilmore seems to be progressing. A large force of negroes is to accompany the expedition.

A fire has occurred at Camp Butler, Ill. in which a large number of the officers of the 13th Illinois Cavalry were badly burned, and a large quantity of army supplies destroyed. Samuel Jones of the 5th Ohio regiment,

has been hung by the rebels in retaliation for the alleged hanging of a robel private of the 62d Goorgin Regiment.

A fearful accident is recorded as having taken place on the Catawissa railroad by which several lives were lost. . . . The rebels have made a dash toward

Tennsville, capturing a number of wagons which were re-taken, together with the leader of the robel force. A collision on the Cleveland & Eric Rail-

road near Painesville, O., caused the loss of several lives and the wounding of a large number. The robels are looking for stirring times

in North Carolina. We hope they won't be disappointed.

#### Fac Similes of the President's Proclamation.

It is well known to the community generally that the original draft of the Presi dent's Emancipation Proclamation was disposed of for the benefit of sick and wounded soldiers, to Mr. Bryan, of Chicago .-Ornamented lithographic copies of the instrument are in course of preparation, to be sold throughout the country, the procoods to be applied to the erection of a Soldier's Home. We learn that spurious representations of the document are already out and being sold on private speculation. It is to be hoped that no one will purchase one of these sham concerns; but we have no doubt that the real fac similes will meet with a ready sale, not only for the sake of the instrument itself, but more especially to aid the great project to which the proceeds are to be devoted—that of the creation and maintenance of a permanent Soldier's Home.

The Home League of Jan. 16th says: "Last Saturday a German of this village whose name we have not learned fell from a disputed land case, in which there was the wood train between here and Rubicon, and was drugged some rods ahead of the wheels of one of the cars and strangely enough got off with only a simple fracture of the leg below the knee." The same paper has the following: John Riley of Erin, in Washington Countydeft his house on Thursday evening to go to a neighbors and was found on the morning. of Jan. 1st wandering around the fields frozen so severely that he lived but a few, hours. The dwelling of Mr. John, Tennant, of Caledonia, Columbia Co., was destroyed by fire on the night of the 10th inst., together with the household effects and a quantity of beef and pork, &c. . The fire is supposed to have originated from ashes kept in the back part of the house.

General Griera No. 0.

It having been reported to these headquarters that, between agen and light o'clock on the evening of the 23d ultimo, within one and a half miles of the village of Mulberry, Lincoln county, Tonnessee, a wagon which had become datached from a loraging train bolonging to the United States was attacked by guerrillus, and the officer in command of the foraging party, 1st bloom, between a company A. 27th Indiana volunteers, the teamster, wagon master, and two other soldiers who had been sent to be all the train, (the latter four unarmed,) captured. They were immediately mounted and hurried off, the guerrillus avolding the roads until their party was halted about one o'clock in the morning, on the bulk of hik river, where the rebels stated, they were going into camp for the night. The hands of the prisoners were then tied behind them, and they were robbed of everything of value about their persons. They were next drawn up in line, about five party immediately fired upon them. One of the latter, who acted as lexler, commanded "read)," and the whole party immediately fired upon them. One of the prisoners was short through the head and killed instantly, and three were wounded. Rett Porter was not hit lie immediately ru, was followed and fired upon three times by one of the party, and, finding that he was about to be corticlen, threw himself over a precipice into the river, and, succeeding high this hands loose, swam to the opposite side, and, although pursued to that side and asseral times fired upon, he, after twenty-four hours of extraordinary evertions and great exposure, reached a house, whence he was taken to Tullshom, where he now lies in a critical situation. The others, after being shot, were immediately thrown into the river; thus the murder of three men, Newell Eroraut, Ohlo volunteers, company H, 22d Wisconsin volunteers, and George W Jacabe, company D, 22d Wisconsin volunteers, was accomplished by shooting and drowning. The fourth, James W. Foley, 9th Independent latter folio volunteers THE TABLEAU PARTY .- The exhibition last evening was an entire success in the conception of the pieces, their performance and in the appreciation of the audience. The Hall was well filled, the exhibition commenced at the very minute advertised and each part was performed without the slightest mistake. The intervals between the pieces were agreeably filled up with music by Miss Gillett, Mrs. Dibble, Professor Towns and others. We believe the audience will all cheerfully testify not only that they have been agreeably entertained, but have seen "the elephant" besides. Great credit is due to the ladies and gentlemen who originated and carried out this performance. We learn that the net proceeds are one hundred dollars. This amount goes to supply the poor and needy with the necessaries of life.: The pleasure the audience received is not all the enjoyment this ontertainment is to confer; it is to carry gladness to many a lesolate hearth stone—to warm and feed in hospital, having escaped by getting his hands free while in the water.

For these atroclous and cold blooded murders, equaling in sawage a rocity any ever committed by the most barbarous tribes on the continent, committed by robed citizens of Tennessee, it is ordered that the property of all other rebel citizens living within a circuit of ten miles of the place where these men were captured, be assessed, each in his due proportion, according to his we sith, to make up the sum of thirty thousand dollars, to be disided among the families who were dependent upon the murdered men for support, as follows:

Ten thousand dollars to be paid to the widow of John W. Drought, of North Cape, Ricine county, Wisconsin, for the support of herself and two children.

Ten thousand dollars to be paid to the widow of Geo W. Jacobs, of Delavin, Walworth county, Wis, for the support of herself and two children.

In thousand dollars to be disided between the aged mother and sister of Nowell E. Orentt, of Burton, Geonga county, Ohio.

Should the arrows accorded fall within any realthe cold and hungry. May those who have spent their time in getting up this fine exhibition be blessed with the reward that ever follows the performance of good and generous deeds.

THE END APPROACHING-WHAT A SOL-DIER THINKS .- Sorgeant Charles H. Lee, of the 8th Regiment, writing from Saulsbury to his wife in this city, under date of January 9th, says:-"Next spring will end this war, for we will march into their aged mother and sister of Newell E. Orentt, of Burton, Geaugh county, Ohio.

Should the persons assessed full within one week after notice shall have been served upon them, to pay in the amount of their tax in money, sufficient of their personal property shall be soized and sold at public auction to make up the amount.

Schools in Lanc.—There are twelve district schools in Linn, that had, on the days of visitation, an aggregate attendance of two hundred and eleven scholars, or an average of not quite eighteen. The smallness of this number is due partly to the coldness of the weather, partly to the small extent of some of the districts, but mainly to the sparseness of the population. Notwithstanding this, the generally good condition of their schools, the liberal wages for the most part paid their teachers, show a degree of interest in education, that is truly laudable and worthy of imitation. #### Fac Similes of the President's Proclamation.

It is well known to the community generally that the original draft of the President's Emancipation Proclamation was disposed of for the benefit of sick and wounded soldiers, to Mr. Bryan, of Chicago .-Ornamented lithographic copies of the instrument are in course of preparation, to be sold throughout the country, the procreds to be applied to the erection of a Soldier's Home. We learn that spurious representations of the document are already out and being sold on private speculation. It is to be hoped that no one will purchase one of these sham converns; but we have no doubt that the real fac similes will meet with a rendy sale, not only for the sake of the instrument itself, but more especially to aid the great project to which the proceeds are to be devoted—that of the creetion and maintonance of a pormanent Spidier's Home.

The Hall was well filled, the exhibition commonced at the very minute advertised and each part was performed without the slightest mistake. The intervals between the pieces were agreeably filled up with music by Miss Gillett, Mrs. Dibble, Professor Towns and others. I refer, of course, to the accident which so fatally impaired his sight. It occured in the Commons Hall, one day after dinner, in his junior year. On this occasion there was some rude frolicking among the undergraduates, such as was not very rare when the college officers had left the tables or they frequently did a few minutes before the room was emptied, It was not much disorder, on this particular occasion, and Prescott had no share in what there was. The organization of the Maryland-Legislature, and its nomination of Ex-Cov. I Holliday Hicks for United States Senator, are only repetitions of results, always sure to follow the efforts of the people to reform

The recent election for the Legislature of Maryland was carried under the influeuce of a growing conviction in the publie mind of the inhumanity and curse of Slavery, and the representatives elected were pledged, a large majority of them, to call a State Convention to abolish the evil, bitter experience already to incline us to and to do all other things they could con-The vote for the abolition of Slavery-

So certain were the friends of abolition n the State that the Legislature would be prompt to obey the popular will in what had to do in the way of organization and the election of a United States Senator, that they were lulled into false security, and loft the work to be done to their ropresentatives, who seemed to apprehend no resistance, and therefore made no preparations to meet emergencies.

Public opinion appeared to center on Mr. Stockbridge, of Baltimore, as the Speaker of the House, on Judge Spencer na United States Senator in place of ex-Governor Hicks, and on Mr. Hill as State

Consultations of the Bultimore delegation revealed opposition to Mr. Stockbridge because he was not a Marylander born, but it was supposed that such an ignoble objection would not be pressed. In a little while it was found that Mr. Jones, of Ceeil county, was a prominent candidate of

This proposition took, especially as the bait ing in their adhesion.

The result was the nomination of Mr. Kemp, who had been elected as an Abolitionist on the Goldsborough ticket over his pro-slavery competitor. So far the programme of Governor Hicks, Lemuel Roberts, William S. Reese and other outsiders was successful.

The same results followed in the choice of State Treasurer. Mr. Fowler was selected as the candidate of the immediate Abolitionists, and as even more radical than Mr. Hill. This was the second step

The Ex-Governor had written a strong Abolition letter to Mr. Murray, of the Baltimore delegation, in which he claimed he was an out-and-out Abolitionist of the immediate order, while Judge Spencer was tabooed as unsound upon the

Menutime, the choice of President of the Senate fell on Mr. Sellman of Anne Arundel county, who was also set up as an immediate Abolitionist; but this was an easy matter, as the Senate is very nearly divided, and the doubtful men could of course go for one of their own number, whose doubts were no longer in the way of pro-

A Kiss in the Right-Direction.

At the ladies fair recently hold in Columbus, Ohio, a pretty Indian girl was observed exerting her persuasive powers to the uttermost tension, trying to induce a cer-tain military gent, who ranks as a captain, to buy a bread basket, or some other ornament she had in her possession. As the gallant captain had been gouged an unlimited number of times during the evening, he didn't see it; but, thinking to startle the maiden, said jokingly. "Don't want to buy your trinkets; but I'll give you five dollars for a kiss." The maiden reflected a moment—she was laboring in a noble cause, for the soldiers' good-"surely, in such a case there's no harm;" so in s twinkling of the eye, she said: "Done sir:" and, as he expressed it, she gave him a whopper right on the cheek. Military drew back, abashed. The crowd saw it and laughed. There was but one way, to escape-he pulled out his somewhat depleted wallot and forked over a V. ## The Union as it Was.

. ]For the Daily Gazette.] As soon as it became known that it was the settled purpose of the Federal Government, aided liberally by the loyal States, to resist the diabolical attack made upon . it by the slave-holders, various plans were proposed for the stilling of the tempost, the pacification of the insurgents, and the restoration of the Union. Compromises were discussed freely both in and out of. Congress. But those who were most in the compromising mood could only think have thought it seemed more dim; but to of the Union as it was. This class of - porsons did not understand the character of the foe with whom the Government had to deal. " They had learned something, it is true, of the barbarisms of slavery :" but the half had not been told them. And so many concluded that it was best to try conciliation and compromise, and thus bring therebels back into the Union, leaving slavery undisturbed. Meanwhile the insurgents went on in their fiendish and bloody work, scorning the idea of being either coaxed or driven to resume their allegiance to the Federal Govern-

to have the Union reconstructed on the old basis. If we were, to choose between dis. memberment and the Union as it was the case would be different we should of course prefer the latter. But we are not eft to this alternative. The Union as it was is not desirable, because the way is clearly open for reconstruction on an antislavery basis. And it needs but half a mental eye to see that this would be far their government and institutions against better than a Union with slavery existing as a disturbing element. If slavery is still after the war coases, we may have to reenact, by and by, the fearful struggle of to-day. Have we not had a sufficiently bitter experience already to incline us to remove the cause of the trouble forever out of the way? It will be removed-this is manifest destiny.

#### The Blindness of Prescott.

In the life of Prescott, the historian, published recently by Ticknor & Fields, the following interesting story of his blindness is given:

"But just at the period of his college history to which Mr. Gardiner refers, or a very little later, the painful accident be-fell him which, in its consequence, changed the whole aspect of the world to him, and tended, more than any other event in his life, to make him what he at last hecame. I refer, of course, to the accident which so fatally impaired his sight. It occurred in the Commons Hail, one day after dinner, in his junior year. On this occasion there was some rude frolicking among the undergraduates, such as was hot very rare when the college officers had left the tables as they frequently did a few minutes before the room was emptied, It was not much disorder, on this particular occasion, and Prescott had no share in what there was . But when he was passing out of the door of the Hall, his attention was attracted by the disturbance going on bolind him. He turned his head quickly riously conquered and established their in- to see what it was, and at the same instant received a blow: from a large, hard piece of bread, thrown, undoubtedly, at random and in mere thoughtlessness and gayety. It struck the open eye fa rare occurrence in the case of that vigilant organ, which, on the approach of the slightest danger, is almost always protected by an instant and instinctive closing of the lid. But here there was no notice-no warning. missile, which must have been with great force, struck the very disk of the eye itself. It was the left eye. He fell, and was immediately brought to his abled to exercise unlimited control over father's house in town, where, in the the Government; to name its presidents course of two or three hours from the neourrence of the accident, he was in the hands of Dr. James Jackson, the kind riend as well as wise medical adviser of his father's family.

They were, in fact, such as commonly attend a concussion of the brain. The strongth of the patient was instantly and completely prostrated. Sickness at the stomach followed. His pulse was feeble. His face became pale and shrunken, and the whole tone of his system was reduced so low, that he could not sit up in bed. But his mind was calm and clear, and he was able to give a distinct account of the accident that had befullen him, and of what had preceded and followed it.

SUGAR CANE MILLS

**EVAPORATORS!** 

THREE SIZES MILLS.

Three Sizes Evaporators.

The above mills are made at the Rock River Iron Works, Janeaville, Wis., and for strength and durability THEY HAVE NO SUPERIOR,

For the benefit of those who may not have seen them, we will state that the shafts in these mills are all made of wrought from and very large, thus guarding against breakage. The rollers are also thicker than in other mills, to prevent crushing in.

These wills are so arranged that every cane gets the the same amount of pressure, thus avoiding the due of weights and levers to keep the mill from breaking by allowing the rollers to raise when two or more cane; cross each other, and in this way not giving the care, on each side of the crossed cases the same pressure; as it is evident if two or three cames are fed on too.

as it is evident if two or three cames are fed on top of each other and the roller ruless up to accommode, a it the came on either side will not be crushed as it is ould be. In our mills this difficulty is avoided and much much care this avoid. be. In our mine the case the case juice saved.

We have the agency for the celebrated Cook a Evaporator and can fluidible them at manufacturers prices, freight added. We can furnish the pan ajone, for setting up an arch, if any should prefer it, thus giving a

AT AS LOW A PRICE,

although we would recommered the Evaporator with Fockers and furnace complete, as much the best if parties can afford it, yet to those who cannot, we offer the pan separately.

To those wishing Mill's or Evaporators this fall we would say, you will obligo in and secure yourselves by ordering early, as we are usually so crowded in this fall if the orders are delayed we cannot always fill them promptly.

Please call and examine mills and evaporators, or send for circulars to
